

Botox®, Dysport®, Letybo®, Xeomin®, Daxxify®

Neuromodulators relax muscles temporarily -reducing dynamic lines (wrinkles caused by facial expression) they generally last 4 months except Daxxify, which lasts 6 months. There are many many uses for this magical medicine and more are being discovered every day!

forehead • crow's feet • frown (11s) • chin • bunny lines • lip flip • undereye • chin • marionette lines • nostril flaring • masseters (for teeth clenching • TMJ (face tapering) • gummy smile • excess sweating (underarms, hands, face) • platysmal bands • neck rings • trapezius muscles (for tension and for tapering) • headaches • facial symmetry

Fillers

Sculpt your face with a needle! Restore volume, smooth out wrinkles, lift the face, sharpen the jawline, augment the cheeks or chin, reshape the nose, rejuvenate the temples or undereyes, add volume to the buttocks, labia, fill cellulite dimples, and more. Dr Guanche has been sculpting the face with needles for over 20 years. Studies show that experience makes all the difference in the safety and results that patients experience.

Juvederm (Ultra™, Voluma™, Volux™, Volbella™, Skinvive™) 1.0cc • Restylane® (Kysse®, Lyft®, Refyne®, Defyne®, Contour®) 1.0cc • Radiesse® 1.5cc • Belotero® • Versa® (Versa Lips™) 1.2cc • Renuva® 1.5cc • RHA® (Redensity®, 2®, 3®, 4®)

Ultherapy®

A non-surgical high intensity focused ultrasound (HIFU) energy device that lifts and tightens the skin by stimulating collagen production in the deep skin layers (dermis).

Full Face (lower + upper face) • Upper Face only • Lower Face only • Extended Neck • Full Neck • Full Face and Extended Neck • Arms • Thighs • V-lift (chin strap lift)

Peels

A carefully applied peel solution that exfoliates the skin, improves tone and texture, and treats acne scars, fine lines and reduces unwanted pigmentation.

Jessner's Peel • TCA Peel 20% • TCA Peel 35% • Salicylic Acid • VI Peel

Guanche Lift™

A facial rejuvenation treatment using strategically placed off-face filler to lift and redrape the skin while maintaining a natural appearance. This is a facial slimming procedure

Silver (2) • Gold (4) • Platinum (6) • Diamond (8)

Thermage™

A radiofrequency energy treatment that tightens skin and reduces wrinkles by stimulating collagen production.

Eyes & Forehead • Full Face • Full Face and Neck • Thighs • Abdomen

Sculptra®

A biostimulator that rejuvenates collagen from the underside of the skin and restores volume. A single treatment is great but a series of three, spaced by a month is ideal to restore a bouncy glow

Face • Chest • Neck • Arms • Knees • Buttocks

Coolsculpting™

A non-invasive permanent fat reduction treatment using controlled cooling to freeze and eliminate stubborn fat cells without leaving behind loose skin

Upper abdomen • Lower abdomen • Back fat • Bra fat • Love handles (lower flanks) • Thighs • Knees • Arms • Double-chin • Jowls • Post Arms • Banana Roll

Fraxel 1550™

Fractionated Erbium-doped laser resurfacing stimulates collagen, reduces deep wrinkles and acne scars with minimal down-time.

A series is recommended: Face Neck • Chest • Arms • Hands • Stretch Marks

Fraxel 1927™

This Fractionated laser peel addresses pigmentation and fine lines--heals within 7 days with a fresh new layer of skin.

Face • Neck • Neck/Chest

VBeam Pulsed Dye Laser®

Targets redness, rosacea, broken blood vessels (telangiectasia), red scars anywhere on the body, red/brown acne scars, melasma, poikiloderma, red acne scars, red stretch marks and more

Face • Neck • Chest • body areas • eyelids

VBeamPerfecta Laser®

Lifts off unwanted pigmentation and brown spots

Face • Neck • Chest • Hands • Legs

Angie Device

This novel device specifically reduces and removes stubborn broken blood vessels (telangiectasia) around the nose, chin and cheeks

M22 Intense Pulsed Light® (IPL-photofacial)

Reduces pigmentation (sun freckling), redness, and stimulates collagen for a rejuvenated look with little down-time

Face • Neck • Chest • Hands • Forearms • Full Arms

Lightwaves

Non-invasive light therapy to target skin concerns such as acne and inflammation, and collagen stimulation

Blue • Red • Combination Blue/Red

Photodynamic Therapy (PDT) for acne

A light-based treatment using Levulan/ aminolevulanic acid, a photosensitizing agent to shrink oil glands and kill acne-causing bacteria and thereby inflammation.

Face • Back • Chest

Sclerotherapy

Still the gold standard treatment for spider veins on the legs, we use hypertonic saline injections to fade small superficial vessels (telangiectasia)

Elective Lesion Removal (non-mole lesions)

We call this body detailing! We remove benign unwanted growths in the safest, most cosmetically elegant way(s). It is important that we know that what we are removing is benign, so this is where our dermatologic expertise comes into play.

Skin tags • Benign warty growths (seborrheic keratoses)
• Red dots and Bumps (cherry angiomas) • Freckles (lentigenes)

Ear Piercing

Medical grade plastic studs are used, which reduces the likelihood of an allergic reaction at the site

Hyaluronidase

An enzyme injection that dissolves hyaluronic acid fillers, allowing for correction or removal of previous filler treatments.

Pimple Injections

Low dose cortisone shots that rapidly reduce inflammation and swelling of cystic acne lesions

B-12 Injection

Vitamin B-12 shots to boost energy, metabolism, mood and overall wellness.

EmSculpt®

A non-invasive body contouring procedure using electromagnetic energy to tone muscle and burn overlying fat. Takes muscle tone to the next level. Reduces waist circumference. Lifts and enhances buttock contour (abdomen, buttocks, biceps, triceps) Pkg of 4 (Available)

Bella FX/Scarlet™ RF MN

Radiofrequency microneedling procedure to firm and tighten skin, reduce wrinkles, and improve skin texture by reducing pore size and broken blood vessels.

Face • Neck • Face & Neck • Lower Face & Neck • Upper Arms • Knees & Thighs • Eyes & Forehead • Eyes Only • Chest • Neck & Chest • Large Body Areas

Laser Hair Removal

Get rid of unwanted hair--practically anywhere!! 755nm Alexandrite laser to targets hair follicles, providing permanent hair reduction GentleLase

Upper Lip • Lower Face (included upper lip) • Full Arms
Full Legs (including thighs) • Legs (knees down) • Feet
• Ears • Men's Neck (back or front) • Back • Shoulders only
• Underarms • Full Arms • Bikini Line • Glabella

Hyperhidrosis Treatment

Reduces excessive sweating, using neuromodulators such as Botox to decrease sweat gland activity.

Underarms • Palms • Soles • Scalp • Nose

Elective Mole Removal

Minor surgical procedure to remove moles for cosmetic or medical reasons.

MicroMelasma

Targets and reduces melasma pigmentation with a sterile vial and tiny microneedles introducing active ingredients and medications that reduce unwanted pigmentation

GLP -1

A weight management treatment program with GLP-1 receptor agonists reduce appetite and help you achieve your goal weight safely.

Jelly Mask

Hydrating and soothing face mask designed to calm and refresh the skin. An excellent add-on after facials.

Charcoal • Antioxidant Goji Berri • Egyptian Rose and more.

Miracle Mask

A 10 minute, affordable medicated facial mask designed to quickly clear up an acne flare

Face • Back • Chest

Salmon Sperm Treatment

A regenerative serum with PDRN (polydeoxyribonucleotide) derived from salmon sperm to promote skin healing and collagen production. An excellent add-on to enhance the benefits of laser treatments, peels, facials, microneedling or as a standalone.

Exosomes

Cutting-edge regenerative therapy using stem cell-derived exosomes to boost skin repair, hydration, and anti-aging effects. An excellent add-on to enhance the benefits of laser treatments, peels, facials, microneedling or as a standalone.

Platelet-Rich Plasma & Microneedling (PRP)

A combination of platelet-rich plasma (PRP) therapy and microneedling to promote collagen production and skin rejuvenation.

Face • Scalp • Tear Troughs (Undereyes)

Microneedling

Fine needles create micro-zones in the skin, stimulating collagen production, improving tone and texture, and allowing products and topicals to penetrate effectively

Depths: Deep or Shallow

Areas: Full Face • Eyes • Mouth • Chest • Scalp • and other areas
