ROASTING WAREHOUSE
SPECIALTY COFFEE

The Tale of Zoya

Zoya, our beautiful muse, our face to the world, is a cherry picker from Ethiopia. She represents the journey from the roots of the process - where the coffee cherries are carefully picked off the trees on the plantation, to that moment you immerse yourself into that cup of delightful flavour. She doesn't just represent the origins of our fine coffee, but also the people at every step of the process, from the farmers and pickers to the roasters and baristas in our cafes.

Zoya's energy, similar to the meaning of her name 'dawn', would warm up the dark night and be out the farm at first light. She quietly picked each cherry, always as careful as she could. She believed that each cherry was important and that each cherry had the power of immense energy. Zoya believed that the fruit of the trees, and its magic, belonged to everyone, so she wanted to share this with the world. So here, at Roasting Warehouse, we are sharing her passion for the perfect cherry with you.
